They Favor Disestablishing the Church of Engiand.
LONDON, Dec. 4.—[By Calle and Associated Press.] The session of the Liberal Federation at Manchester was continued to-day. A restriction was adopted to demand urgency at the coming session of Parliament for the bill embodying the 'one man one vote' principle. Resolutions were also adopted favoring shortening the duration of Parliament, reduction of the period of residence, enabling a man to vote to three months; favoring compulsory powers to acquire allotment; the abolition of the duties on tea, coffee and ecca; a direct popular vote on the liquor traffic, and the disestablishment of the Church of England.
Gladstone was given a non-partisan reception in the town hall. He made an address in which he dilated upon the value of municipal institutions as among the best guarantees of social security. This, he said, was demonstrated by the improvement they have effected in the life and condition of the great masses of the people.

NOTES FROM ABROAD.

Lively Scenes in the Belgian Chamber of Deputies.

BRUSSELS, Dec. 4.—[By Cable and Associated Press.] In the Deputies today the Radical Deputy Bara denounced the Government for dismissing Chief Detective Gauter, who, he said, had been made a scapegoat. The Government itself was responsible for the employment of agents to lead excited men into crime. There was a great crowd assembled during the discussion, and many collisions with the police outside.

MINERS APPEAL TO THE KAISEB. BERLIN, Dec. 4.—Two hundred thousand miners employed in the Treasury coal mines in the Saar district have petitioned the Kaiser to intervene in their behalf. They complain that even unmarried men cannot live on the wages they now get, as all things are very dear.

PRANCE AND BRAZIL.

PABIS, Dec. 4.—The Journat des Debats says Admiral Barbey, Minister of Marine, after consulting with Spuller, Minister of Foreign Affairs, has decided to send a warship to Brazil. The Journal censures the action.

VIENNA AGAIN SNOWED UP.
VIENNA, Dec. 4.—The city is snowed up again. Provisions are from 15 to 25 per cent. dearer on account of impeded communications. The postal service is done on sleighs.

A MIGHTY TASK. A MIGHTY TASK.

and Walter E. Miles, of the Associated Press, took place this afternoon. Four fellow-operators from the Associated Press. four from the Western Union and four from the North American Telegraph Company acted as pall bearers. Commercial Editor Miliman's funeral was also held this afternoon, and the body was tonight sent to Broachead, Wis.

All day today the Coroner's inquest has continued, the jury hearing evidence as to the deaths of different persons in the building, efforts to secure better fire protection, and other matters pertaining thereto.

A Noted Doctor's Will.

New York, Dec. 4.—The will of Dr.

Isaac E. Taylor, founder of Bellevue Hospital Medical College, and its president until his death, was filed for probate today. He leaves his property to his family. Dr. Taylor left a widow, Sarah A. Taylor of Bristol, R. I.; a son, Stuart Molton Taylor ef San Francisco, and three daughters and Jane Judge of San Francisco, Emily Taylor-Lorillard, wife of Pierre Lorillard, and Louisa Taylor of Tuxedo Park.

Fire on a Steamer.

NEW YORK, Dec. 4.—Shortly after the steamer Newburgh left her dock this afternoon for Newburgh fire was discovered in the cargo. There was quite a panic among the 50 passengers aboard, but the boat was run into the dock, the passengers unloaded and the fire soon got under control.

Fatal Fall. CLEVELAND, Dec. 4.—By the breaking of a rope in a care in the coal mine near Steubenville two boys, named Robert Davis and John Devinny, were precipitated 75 feet and killed.

Affray Among Italian Women.

Affray Among Italian Women.

New York, Dec. 4.—Shortly after noon today Antoinette Feralia was shot and instantly killed by Asunda Buquetto, another Italian woman, with whom she became involved in a row over a money matter. The row was general, and several participants escaped.

When a policeman entered the room he found Antoinette Feralia lying dead on the floor. Maria Cerase, the dead woman's mother, was shot through the left elbow, while her sister, Fetronella Periso, had received a builet in the left breast. The injured women were removed in an ambulance to the hospital. The murderess refused to give any explanation, other than to intimate that the shooting was brought about during a quarrel over money matters. She is about 26 years old.

A Girl Gambler in Trouble.

A Girl Gambler in Trouble CHICAGO, Dec. 4.—Ella C. White, a hand-some young teacher of Elmira, N. Y., who suddenly disappeared a couple of months suddenly disappeared a couple of months ago after the discovery of the fact that she had fraudulently obtained about \$25,000 by the forgery of other people's names, and spent the money in speculation, was located in Chicago several days ago and today was taken to Emira on a requisition. Since coming here a couple of months ago she has been speculating in bucket shops and this resulted in her discovery, descriptions having been sent out by the Elmira police.

Losses by the Lynn Fire. LYNN (Mass.). Dec. 4.—For the first time since the great fire it is possible to make a reasonably accurate canvass of the situation reasonably accurate canvass of the situation as it relates to the shoe industry. Fully 60 per cent. of the shoe and leather-houses of the city were burned out. The number of shoe firms burned out is over 80, while 15 sole-leather cutters and six dealers in tops, stiffenings and other shoe findings were also burned out. The aggregate loss to these branches and machinery is over \$2,200,000.

Struck by a Train.

WILKEBALINE (Pa.), Dec. 4.—A gang of railroad laborers at the Jersey Central rainond incores at the Sersey central station this morning, waiting for a work train, stepped from one track to the other to avoid a fast freight, when the work train dashed into them. Benjamin Polsue and William Brent were instantly killed, and Stephen Steifel and Conrad Ernst mortally wounded.

The Evangelical Alliance.
Boston, Dec. 4.—The General Christian Conference under the auspices of the American-English Alliance of the United States, to continue three days, began in Tremont Temple this morning. Rev. Dr. J. Strong, the secretary, spoke on the progress of Christian cooperation since the Washington conference.

Ty Telegroph to the Times.,

COLUMBES (O.), Dec. 4.—[By the Associated Press.] Foraker gave out tonight for publication the entire correspondence between himself and R. G. Wood of Cincinnati in regard to the ballot-box contract forgery which figured in the late campaign. forgery which figured in the late campaign. The correspondence was brought out by an article published in the Cincinnati Raquirer, intimating that Wood had made a confession which would, when made public, implicate some men high in party and authority. The article was so construed as to leave little doubt that Gov. Foraker was one of those referred to. A telegram which the Governor sent the Enquirer states that he has been ready at all times to furnish any information which he possessed in regard to the matter, and saying that he was entirely innocent of the Imputation which was sought to be cast upon him.

RESULT OF A FEUD. Fatal Affray Between a Marshal

and a City Officer. BUTLER (Mo.), Dec. 4.-[By the Associated Press.] United States Marshal Willis, who had a warrant for the arrest of Pierco Morgan, a moonshiner, late last night met him on the street. Morgan declared he would not be taken alive, and drew a revol-ver and fired. The builet missed its mark and Willis whipped out his revolver and

and Willis whipped out his revolver and both fired simultaneously. Both bullets took effect. Willis was shot through the heart and died instantly. Morgan was shot in the stomach and died this morning.

Another story of the tragedy is that it was the consummation of a long-standing feud. Yesterday Willis, while intoxicated, quarreled with some of Morgan's friends, and was arrested by Morgan's friends, and was arrested by Morgan, who is City Marshai. Willis, upon being released, swore out a warrant for Morgan's arrest, charging him with obstructing a Federal officer in the discharge of his duty. He went to Morgan's house, called him out, and the shooting followed.

Defending the Suspects.
CHICAGO, Dec. 4.—This morning Donahoe, counsel for O'Sullivan and Kunze, be-

hoe, counsel for O'Sullivan and Kunze, began his address to the Cronin jury in their
defense. Donahoe talked at length about
circumstantial evidence, resionable doubt,
etc. He argued that O'Sullivan's contract
with Cronin could not be used against the
iceman because it had not been proved that
O'Sullivan's intention was to use the contract to bring about Cronin's death. O'Sullivan had no motive to commit this crime.
At the close of Donahoe's address the court
adjourned.

Live-stock Dealers Organize.

CHICAGO, Dec. 4.—A meeting of live-stock dealers of Chicago, Kansas City, Omaha, St. Louis, Sioux City, Peoria and today it has perfected an organization to be known as the "National Live-stock Exchange." Its objects are defined to be the development and protection of live-stock interests throughout the country and the correction of evils which have grown in the trade. It is emphatically denied that anything in the nature of a trust is contemplated.

A Sheriff's Rich Haul.

NEW YORK, Dec. 4.—The Sheriff today made an important seizure in connection with the failure of Stern & Stern. He seized some heavily-laden trunks which arrived from the West, belonging to the tirm, and which are said to contain a large amount of diamonds, watches and jewelsy. These are supposed to be the trunks which Jacob Stern had in Cincinnat.

Fatal Result.

H. H. BOYCE ARRAIGNED FOR EXTORTION.

ext Monday Fixed for Him to Plead-Full Text of the Indict-ment Returned by the Grand Jury - Circumstances of

The arraignment of H. H. Boyce, director-general and principal owner of the Los Angeles Tribune, under indictment by the Grand Jury of this county upon a charge of blackmailing Justice Theodore Savage, took place yesterday morning before Judge Cheney. The defendant entered the courtroom a few minutes before 10 o'clock with his counsel, J. A. Anderson, Esq. A. A. Montaño, under indictment for embezzlement of the county funds, was arraigned first, and then "Mr."

was arraigned first, and then "Mr."
Boyco stepped before the bar. He was
dressed in immaculate style, wore an
overcoat, and carried his high silk hat in his hand. He did not seem entirely at ease, and was evidently desirous of sliding out of the courtroom as soon as possible. Assistant District Attorney McComas read the charge in the indictment to him and served him with a copy of the document. The Court fixed next Monday for him to plead fixed next Monday for him to plead, and "Mr." Boyce speedily vanished through the folding doors of the court-

BARNUM BLAKE, An Old Settler Gone to Rest—The Process of Cremation Invoked. Barnum Blake, who has resided in this city since 1876, died last Saturday at 1:10 o'clock. He was a man of con-siderable means, and was among the first to see the wants of Los Angeles. About four years ago he constructed the Bellevue Terrace, of 140 rooms, and other smaller houses containing and other smaller houses containing from seven to twenty rooms. He was born in Franklin, Mass., in 1818, and up to the age of 18 years he worked on his father's farm. After this he followed the business of a commission merchant until he obtained his majority, when he married one of the belles of his native town. He then moved to Albany, N. Y., and entered the millinery business, with branch houses at St. Louis and Cincinnati. In 1849 he and Leland Stanford decided to go west. They traveled through nouses at St. Louis and Cincinnati. In 1840 he and Leland Stanford decided to go west. They traveled through Chicago, which was then a small trading post, and located in Port Washington, a town which was the center of a large wheat-producing country, and located about twenty-five miles north of Milwaukee. He had constructed elevators and vessels with which to handle and carry the wheat to Buffalo. Here he lost his first wife and married a second time. He accumulated a large fortune during the war, and in 1869 moved to Chicago, In 1871 he lost heavily by the fire of Chicago. He moved to this city in 1876, and has lived here happily with his family ever since.

His hobby was cremation, and his expressed wish was that when he died he should be cremated.

His son, J. Fred Blake, has carried out his wisbes, and his ashes will probably be sent back east and placed in

the family vault at Rose Hill Cametery, located near Chicago.

Mr. Blake was temperate in his habits, very seldom touching tobacco or intoxicants, and then only as a medicine. He was in almost perfect health until he was partially paralyzed three years ago. He has been gradually failing dutil his death, which took place last Saturday. He leaves many friends and a family of eight children to mourn his loss. His funeral took place last Monday at 130, Dr. Fay officiating.

The process of cremating the body of Mr. Blake took place at the Rosedale Cemetery crematory yesterday in the presence of Gov. Mansfield, Undertaker Orr, reporters of the press, and a few friends. The process, which has heretofore been described in these columns, was successfully carried out in this case. The body was put into the forty-hours hot furnace at 9:20 o'clock in the morning, and within one hour the work of incineration was substantially finished. The ashes will be removed from the furnace this morning and delivered to the family.

zation will be to build up factories. We want butter factories and canneries of all kinds, and the only way to obtain that is to band ourselves together and take stock in the institutions. The consumers get the most of their butter and canned goods from the East and northern portion of the State, and yet, strange as the statement may seem, our producers can get little or nothing for their goods. The union will be composed of the bestmen in this section, and we will be strong enough to build our own factories and protect ourselves against outsiders. This country is all right, and is destined to become the greatest business center on the coast, but we must cooperate to effect it, and I hope there will be a rousing meeting next Saturday afternoon, at the rooms of the Chamber of Commerce."

The conduit over the hill has been almost filled up with sand and dirt during the recent rains, and it is estimated that it will cost from \$1000 to \$2000 to put the road in running order. Wanted the Shop.
Yesterday afternoon an Italian
named Joe Specia was arrested on Upper Main street, by Officer Stechenson, on the complaint of a fellow-

phenson, on the complaint of a fellow-countryman, named J. Bennetto, charging him with battery. Both parties were brought to the police station, where they were locked up until they could be brought before Judge Stanton, when the case was promptly dismissed. It was shown that Specia kept a small shop on Upper Main street, and during his absence Bennetto entered the place and attempted to take possession. On Specia's return, he "fired" Bennetto into the street, when he refused to leave, whereupon the latter had the other fellow arrested for battery.

Rev. A. W. Rider delivered a very able address on "Alm in Teaching." He said that the aims of the teacher should be three in number: First, to secure the attention of the scholar: second, to teach truth; third, to awaken conscience. Among other suggestions offered was that only one thought should be impressed from each lesson. More than that may cause confusion

More than that may cause confusion in the child mind.

Rev. D. H. Colcord, the next speaker, handled the subject, "The Manner of Teaching," in a masterly way, illustrating common errors with laughable anecdotes. Simplicity of language and thorough preparation were urged as prime requisites of good teaching, and teachers should endeavor to induce the scholars to do most of the talking themselves. Numerous delegates followed Mr. Colcord with various suggestions and questions.

The final address of the afternoon was delivered by Rev. H. M. Du Bose on the "Expected Success." The religious feeling has been powerful in all ages, and that feeling, which induced the erection of mighty temples and cathedrals in times past, now leads to the building of the teaching and training of the children. We should have patience in this work, but should expect some day to see some result of our labor. We should try above all things to keep the child-heart pure. A purified heart

The Evening Session.

This began with a half-hour song service. Then came the devotional exercises by the well-known Sundayschool organizer, Rev. H. P. Case.

The Nominating Committee reported the selection of George T. Hanley of this city, Mr. Strong of Pasadena, Mr. Kendrick of Downey and Mr. Swartvelt of Santa Monica as vice-presidents at large, an additional vice-president to be chosen from every town represented.

could ride all day on one fare by getting off and on at the proper points.

To make the illustration plain, a passenger could get on the cable in East Los Angeles, ride to First and Spring streets, take a transfer to Boyle Heights, take a transfer at that point to the Aliso-street line, ride on Aliso to Main street and then take a transfer back to East Los Angeles, thus making the round-trip for 5 cents.

The Clark Case. The jury in the Clark case in Judge Clark's court agreed upon a verdict at 2 o'clock yesterday morning, and it was sealed, the jurors going home. It was found yesterday morning that they had returned a verdict of \$2000 damages in favor of the plaintiff and against Dr. S. Saulsbury, the defendant. A stay of execution of 15 days was granted to enable the defendant to prepare a motion for a new trial. The verdict was a great surprise to those who followed the evidence. It was quite generally prophesied that the jury would be out only a short time and give a verdict for the defendant. But juries are "onsartin." 2 o'clock yesterday morning, and it was

THE Santa Ana Blade paralyzed the pumkin sheets of that valley by projecting upon the population a supplement containing the President's mes sage in full.

THE Boards of Supervisors of Los Angeles and Orange counties met yesterday in joint session and effected a satisfactory settlement of the knotty tax question which has been troubling citizens of the two counties.

THE Convocation of the Episcopal Church, now in session in Los Angeles, at yesterday's meeting dealt with the question of the division of the State, which failed to carry at the recent general convention by a very narrow margin. Much regret is felt among churchmen in this part of the State at the failure to carry this much-desired reform, but it is intended to push the question with renewed vigor at the next general convention.

THE first bill introduced in the Senate came from Senator Sherman, and
The President in his message expressed was aimed at trusts, being identical with the Anti-trust Bill reported by him last year from the Committee on Finance. It declares that all trusts are unlawful, gives persons power to are advanced in value by combination and declares the officers of trusts are guilty of misdemeanors. Senator Sherman has made a good beginning of the session.

MR. POWDERLY believes that the Knights of Labor and the Farmers Alliance will join fortunes. On Tues day last a committee of each organization met at St. Louis to discuss the feasibility of the problem. Mr. Powderly thinks it might mean that the two organizations, when combined, will wield such a political power as to control the Presidential chair. He says there are 500,000 Knights of Labor and over 2,000,000 members of the Farmers' Alliance. Mr. Powderly should remember that there is a fixed objection to the "control" of politics by organizations or rings in this country. Should such a move be made, an other organization would undoubtedly form to work against it and neutralize its effect.

In these days of congresses and con ventions, an important congress has been in session to which little attention has been directed. This is the Central American Congress, called to consider a federation of the five republics of Nicaragua, Costa Rica, Guate mala, Honduras and San Salvador. It has been agreed that the term of the President of the federation is to be one year, and that the office is to be held by the presidents of the severa republics consecutively. It has further en decided that the Executive Council shall be composed of five members and that the approval of a majority must be essential to validate the act of the Executive. The federation is to go into effect on September 15, 1890 and the name of the union is to be "The States of the Republic of Central America." Commerce in natural products among the States is to be made free. One strong Central Amer ican State would certainly be better than five weak ones, and the United States should wish the new movement

THE FIFTY-FIRST CONGRESS.

The present Congress will in a few days settle down to business. It is the first Congress in sixteen years in which the Republican party has had a clear majority in both branches. In this Congress, if every member were in his seat, there would be in the Senatenot reckening Montans—46 Republican not reckoning Montana—45 Republicans and 37 Democratic Senators. The House numbers 330 members, of Democrats. It will require 166 votes for a quorum in the House, so that the Republicans, when all are present, will have three more than a quorum, and a majority of eight over their po

litical opponents. One of the most important matters pefore the House is that of the rules which are to regulate its business. Upon this important question the Boson Journal recently contained the fol-

ton Journal recently contained the following comment:

Under the rules which have controlled the action of the House for some years the functions of Congress as a law-making body have been almost paralyzed. It has been possible for a small group of resolute obstructionista, to delay indefinitely the transaction or business and to force almost any terms from the majority. The result has been that the control of the proceedings, and the determining what shall and what shall not be considered, have been transferred from the majority to the minority, in entire subversion of the Republican idea; and we have had the anomaly of political accountability without its proper accompaniment of political power. It is for the interest of all that responsibility should be sharply defined, and should rest where the votes of the people have placed it. As many of the questions which have been blocked by factious opposition are non-political, this is an issue upon which it would seem that the roadest men of both parties should be able to unite—all the more because, in a House so closely balanced as the present, there can be no just apprehension of an abuse of power on the part of the majority. But, as is well known, the Democrats threaten to exhaust all their parliamentary resources to prevent the adoption of rules to facilitate the business of the House. Associated with this question to some extent, and intensifying the partisan spirit in which its regarded, is that of contested seats of members. These contests are more numerous than ordinary, and most of them turn upon allegations of violence and fraud in southern districts. owing comment:

After such preliminary questions are disposed of, the most important subjects before Congress will probably be the revision of the tariff, the silver question, civil service reform, the granting of subsidies to American steamship lines and a general bank-

ruptcy law. The people hope for a session which shall be fruitful of beneficial results to the Nation, and expect our legislators to sink private animosities and party n a general effort for the pub lic good.

WINDOM'S SILVER PLAN.

Secretary of the Treasury Windon in his annual report, discusses the silver question at great length and gives in detail his plan, to which the President referred in his message. In brief, it is as follows:

The issue of Treasury notes should be made against deposits of silver

when deposited, payable on demand, and in such quantities of silver bullion as will equal in value at the rate of presentation the number of dollars expressed on the face of the notes at the market price of silver or in gold, at the option of the Government, or in silver dollars at the option of the hold-ers. Also the repeal of the compulsory features of the present coinage act.

Among the advantages which the Secretary claims for the measure are that it would bring into use all the money metal of the country. It would give a paper currency not subject to undue or arbitrary inflation or contraction; it would enhance the value of silver and open the way to its free coinage. Gold would be relieved of part of the work required of it. It would meet the wants of those desiring a larger volume of circulation, and it would be advantageous to the silver

producers.

This is certainly a plan which would afford much relief to the producers of himself favorably to the he had examined it. It is to be hoped that it will receive the favorable con-

sideration of Congress.

SAYS the Albany Journal: The illness of Jefferson Davis has raised an interesting question at the War Depart-ment. In the event of his death will the an interesting question at the war Department. In the event of his death will the United States flag be placed at half-mast on the department building? Both precedent and tradition would justify the course which is aiways followed when an ex-Cabinet Minister dies. When "Jake" Thompson, who served as Secretary of the Interior under President Buchanan, and subsequently joined the fortunes of the Southern Confederacy, died a few years ago, the flag was raised over the Interior building. Republicans commented bitterly upon the action of the Cleveland Administration in paying this tribute to an ex-Confederate. The War Department officials refuse to discuss the matter, but the general understanding is that Mr. Davis, not having his disabilities removed, is not a citizen of the United States, and that therefore, there will be no occasion for placing the flag at half-mast at the time of his death.

Whatever "precedent" and "tra-

Whatever "precedent" and "tradition" might justify, common sense and patriotism would certainly forbid the salutation of the departure of the arch-traitor by the dipping of a flag which it was his persistent object to dishonor and destroy - an object which he has never yet disavowed or regretted.

A singular discovery has been made on the Fiji Islands. A disease has caused much the Fiji Islands. A disease has caused much havoe on a banana piantation, part of which was on a flat near the seashore. The sea swept into this section, remaining about an hour. All the piants were killed as far as the standing stems were concerned, but vigorous young shoots came up freely from the roots, and were not only quite free from disease, but soon began to bear much larger bunches of fruit than the older piants ever did. The planters took the hint and experimented upon a number of badly diseased plants which the sea had not reached. They cut down the plants, and, having stirred the ground about them, poured from one to four buckets of sea water over each. The result was that, while the parent stems withered, vigorous young shoots came freely away, without a sign of disease.

VINDOM'S REPORT.

tary's Plan for Increasing

silver Coinage. ated Pres. I In his annual report Secretary of the Trasury Windom discusses the silver question at great length, and makes the recommendation in place of vari-sed plans as to the increased or free of silver dollars: The issue of motes against deposits of silver bultreasure notes against deposits of silver bul-lion at he market price of silver, when de-posited payable on demand and in such quantilis of silver builton as will equal in value at he date of presentation the number of doll a expressed on the face of the notes at the arket price of silver, or in gold, at the option of the Government, or in silver dollars at the option of the holders; also the repeal of the compulsory features of the present coinage act.

He certifies the proposition briefly thus:

dollars the option of the holders; also the present to image act.

He centiques the proposition briefly thus:

"To ope the mints of the United States to the free leposit of silver, the market value of the same not to exceed \$1 for \$413.5 grains of stanfard silver, at the time of the deposit, to be paid in treasury notes, said notes to be redeemable in the quantity of silver which could be purchased by the number of dollars expressed on the face of the notes at the time presented for payment, or in gold, at the option of the Government, and to be received for customs, taxes and all public dues, and when so received they may be rejasued. And such notes, when held by any national banking association, shall be counted as part of its lawful reserve. The Secretary of the Treasury should have discretionary power to suspend temporarily the receipts of silver bullion and payment in notes when necessary to protect the Government against a combination formed for the purpose of giving arbitrary rittens price to silver, if the purpose of giving arbitrary rittens price to silver, fit the second to the same of the same

the grow of the with the number of gold dollars called for by his note at the date of payment. If the price should decline, he would receive more silver, than he desosited by the quantity which could be purchased with the number of gold dollars called for by his note at the time it is presented for payment.

"The advantage of retaining the option to redeem it in gold is threefold: First, it would give additional credit to the notes; secondly, it would prevent the withdrawal and redeposit of silver for speculative purposes; third, it would afford a convenient method of making change when the weight of silver bars does not correspond with the amount of the notes.

"Among the advantages which the Secretary claims for the measure are that it would bring into use all the money metal of the country. It would give a paper currency not subject to undue or arbitrary infistion or contraction; it would enhance the value of silver and open the way to its free counges. Gold would be relieved of part of the work required of it; it would meet the wants of those desiring a larger volume of curculation, and it would be advantageous to the silver producers.

The Secretary gives many facts and fig. circulation, and it would be advantageous to the silver producers.

The Secretary gives many facts and figures tending to support the position taken by him.

THE WOOL-GROWERS.

ated Press. | At the National Wool-grow ers' meeting today a committee to prepare an address to the wool-growers of the United States was appointed. Columbus Deland of Ohio, president of the National Associa-tion, delivered the annual address. He said both food and clothing should be pro-

tion, delivered the annual address. He said both food and clothing should be produced at home, not purchased from abroad, when the people who consume them have facilities for their production.

"Influenced by the set of 1883," he continued, "wool-growing languishes throughout the United States, and, without relief, must soon perish. In Texas the wool clip of 1883 was valued at 49, 282, 234. In 1887 it was \$5,016,674, showing a loss of \$4,211,562. It it desirable to extinguish the industry best adapted to this vast section under the cry of "free trade" or "free wool"? Under the lindunce of the act of 1883 our annual clip has been reduced 55,000,000 pounds, while it should have increased at the rate of 2 per cept annually to keep pace with the natural growth of the country. To those who favor free trade as our true policy I add no protest against free wool. If it be free trade, let us have it as a system pure and simple, without the adulteration of duplicity under the imme of 'incidental protection'. Let us do one ro the other, and have an economic policy that is entitled to an honest and correct name. A 'tariff for revenue," with 'incidental protection' is a delusion and a fraud. We need a national policy on this subject honestly named. If it is protection, let it be general and uniform, embracing all American industries that can be profitably pursued by our people."

At the conclusion of the address the meeting adjourned, and the delegates in a body called on the President and Secretary Rusk. Their brief interview with the President, as well as that with the Secretary of Agriculture, is said to have been of a very satisfactory character.

The Patrons of Husbandry of the United States, representing nearly every State in this great Union, recording the great power and efficiency of the railroad system of the Nation in the development of agriculture, the prime source of all wealth, and having enjoyed the superior advantages of one of the best systems of railroad communication on the continent, desire to take this opportunity, en leaving the State, to extend our hearty thanks to the several presidents, directors and companies, viz: To the Southern Pacific Company, North Pacific Coast and the Santa Fé service, and particularly to the courteous agents of these several railroads for their generous treatment and excellent service which we have received from their hands, all of whom have contributed so much to our enjoyment and information as guests of the Commonwealth during our extensive journey of nearly 2000 miles through the magnificent Empire State of California.

Resolved, that from our own individual experiences we cordially recommend their companies and their several railroad comforts and conveniences to the patronage of the great traveling public.

The resolutions were adopted unanimously.

Bills Offered Providing Fortifica-tions on the acific Coast and for Increasing the Regular Army.

By Twicgraph to The Times.

WASHINGTON (D.C.), Dec. 4.—[By the Associated Press.] Senate.—The credentials of Messrs. Pierce and Casey, as Senators from North Dakota, were presented and the Senators took the oath of office.

Mr. Hoar reported back the resolution offered by him on Monday, providing a mode for ascertaining by lot the classes to which the Senators from the three new States, North Dakota, South Dakota and Washington, shall be assigned (as to their respective terms of service).

Mr. Cullom thereupon presented certificates from the two houses of the North Dakota Legislature designating Pierce as the Senator for the long term.

Mr. Hoar contended that the Legislature had nothing to do with the matter, which expressed earnless on the Senator, which

Sonator for the long term.

Mr. Hoar contended that the Legislature had nothing to do with the matter, which expressly devolved on the Senate.

Mr. Gorman remarked that identically the same case had been presented in regard to the first Senator from Minnesots when the Legislature designated Rice as Senator for the long term, and the Senate decided that such action could not be regarded by it. The resolution was agreed to and the drawing by lot (as provided by if) was proceeded with. The result was that of the two Senators from the State of Washington, Squire was assigned to the class of Senators whose term expires March 30, 1801, and Allen to the class expiring in March, 1893. Of the Sonth Dakota Senators, Moody got the short term and Pettigrew the long term. Of the North Dakota Senators, Pierce got the short term and Casey the long.

The first bill introduced came from Mr. Sherman and was almed at trusts. It is identical with the Anti-trust Bill reported by him last year from the Committee on Finance. It declares that all trusts are unlawful and gives persons power to recover in the courts whenever articles are advanced in value by combinations and declares the officers of trusts are guilty of misdemeanors.

A petition was presented by Culiom of the Shorthorn Producers' Association in favor of subsidies for steamships to South and Central America, and in favor of Chicago as the site of the proposed World's Fair in 1892.

A resolution was introduced by Cockrell from the Kanass City. Commercial Exchange favoring St. Louis as the site of the World's Fair, with Chicago second choice; siso favoring 1-cent letter postage.

One hundred and five bills were introduced and referred, including the following:

By Suerman: To make and alter regulations as to times, places and manner of holding elections for Representatives in Congress.

By George: In relation to trusts and other acts in restraint of trade and produc-

day in the Laura E. Sample trial before Judge Shaw. The defendant seems to be confident that she will be acquitted of the charge of having forged the will of the late Barber Susand. It developed in the testimony yesterday that she has been a fortune-teller. During the afternoon two witnesses for the defense were examined, their testimony being expert in regard to the handwriting of the will and the defendant, they claiming that Mrs. Sample did not write the will.

By George: In relation to trusts and other acts in restraint of trade and production.

By Mr. Cameron: The Subsidy Steamship Bill introduced by him in the last Congress. By Mr. Dolph: Bill providing for fortifications and other sea coast defenses, as recommended by the board appointed by President Cleveland to select ports at which rottifications are most urgently needed. Among the ports selected are San Francisco, the lake ports, New Orleans, Galveston, Portland, Or., and San Diego. The bill appropriates for the purpose 1156 577, EO. 1997, and San Diego. The sample of the batterjes on the Pacific Coast may be constructed at the Government gun factory to be erected on that coast, at a cost not to exceed \$1,000,000.

By Mr. Cullom: Bill for the disposal of all public lands of the United States in California, Oregon, Colorado, Nevada, Washington, Monfana, North and South Dakota, and ip States that may be formed out of the Territories of Arizona, New Mexico, Utah, Idaho, Wyoming and Alaska, and which have not been otherwise disposed of or reserved before the acceptance of this act by the States and ratification by Congress. It provides those lands shall be ceded to the States and eventual States in which the lands lie on condition that the States shall convey no more than 80 acres susceptible of remunerative irrigation to any one settler. If a state shall be used for the irrigation of such lands as may be made remuneratively productive. If the land is given to settlers it is to be taxed and the proceeds applied to irrigation purposes. By Mr. Manderson: Bill in accordance with the recommendations of the Secretary of War to increase the efficiency of the Infantry of the army. By Mr. Hawes: Extending the pension laws (bill prepared by the committee of the G.A.R.).

By Mr. Stewart: To provide for the free coinage of both gold and silver, and for the issuance of coin certificates to circulate as

money.

By Mr. Morrill: To refund direct taxes collected under the act of 1861.

By Mr. Spooner: Two bills as to the election of members of Congress; also a bill to regulate commerce by telegraph.

By Mr. Manderson: To grant pensions to ex-soldiers incapacitated for manual labor; to prevent the summary cancellation of pension certificates and provide a hearing in cases relating thereto.

By Mr. Vance: To repeal the civil service law.

By Mr. Everts: Several bills to increase the salaries of United States Circuit and District judges.

By Mr. Voorhees: For the payment of arrears of pensions from the date of death or discharge. The only Japanese natives' store in Los

By Mr. Cullom: To equalize the rates of pensions in certain cases.

By Mr. Farwell: To perpetuate the national banking system.

By Mr. Paddock: For postoffice buildings in towns where the postoffice receipts exceeded \$3000 a year.

By Mr. Wilson of Iowa: Subjecting imported liquors to the provisions of the laws of the several States.

By Mr. Davis: Granting pensions to exsoldiers and saliors incapacitated for manual labor and to dependent relatives.

By Mr. Mitchell: To prohibit objectionable foreign immigration, escourage desirable immigration, and defend American labor; also for the admission of Idaho as a State.

A case that involves the basest A case that involves the basest agratitude or makes an explanation necessary developed yesterday, before Judge Van Dyke, in the examination of Jonathan Young for insanity. The patient is a venerable man 70 years age, and is quite feeble. He is suffering from a natural decay of his powers of vitality, and after examination the Commissioners of Lunacy pronounced it a case of senile insanity. They would not send him to an insan asylum, because he is not dangerous in The Senate then proceeded to executive business, and soon adjourned. The German mint has issued a coin in memory of the late Emperor. It is of the dorin type. Encircling the head is the inscription, "Germany will never forgets its Fritz." taken to the County Poor Farm unti the authorities of San Diego county can be communicated with.

A sad story developed in the course of the examination. It appears that the old man is from San Diego county, where he has now three sons living, one of them being a member of the Legislature of California, and named Alsinus Young. The other two are jewelers and are named George and William Young, all three living in San Diego county.

100,000,000 roubles are required for this purpose.

A paper just issued from the London colonial office gives some interesting information concerning the colony of Lagos. It appears to be a paradise for the usurers, for it is stated that the rate of interest charged locally for money varies from 20 to 60 per cent., while the poorer classes pay from 6 pence to 1 shilling in the pound per month for monetary accommodation.

The latest development of the electric light is likely to prove of great use for vehicular traffic. Some time ago they sent their father to some people living in the neighborhood of Azusa, paying them \$15. h month to take care of him. They were poor people and did the best they could for their charge, but he required a great deal of attention, and they finally concluded that they could not continue to care for him. They communicated with the brothers at San Diego, but without receiving any satisfaction from them, and one day a Deputy Sheriff was sent to bring him to the city and have him sent to an insane asylum. This action must have been taken from word sent by the sons to the Sheriff's office, because the people taking care of him knew nothing about it.

The legislator, Alsinus Young, and George Young are married, and there seems to have been some trouble about taking care of the father in their homes. There were intimations in the testimony yesterday that old Mr. Young formerly had some property which has in some way been taken away from him, and it looks very much as if he has been turned out like a broken-down horse to die.

GARRETT AGAIN.

THIS TIME UNDERGOING TRIAL FOR INCEST.

Mrs. Edgecomb Once More R cites the Shocking Story of Her Father's Conduct Toward Her-No New Features of the Story

The closing chapter in the disagree able Garrett case began again in Judge Cheney's court yesterday morning, the dramatis personæ being all present. Capt. F. M. Garrett, the defendant, charged with incest, dragged wearily into the courtroom, his side-whiskers grayer than ever, and his brazen stare more brassy than ever. His daughter, her mother, Josie Corbett, Nettle Keyes, Mrs. Watson and other witnesses in the case made up as remarkable a picture as ever witnessed in a courtroom, and all came in for a steady glance from Capt. Garrett and his eye-

Strange to say, the counsel for defense made no more efforts for delay, although there was a delay, owing to the nen-arrival of some of the witnesses for the defense, Mr. Williams declining to announce himself ready until they came. It was not as difficult a matter as expected to secure a jury. Eight jurors were accepted from the first 12 drawn, and the panel being completed by 12 o'clock. The following constitute the jury: W. G. McMullen, J. R. Summers, D. Jones, W. O. Swan, J. A. Cline, A. A. Fall, W. A. Field, J. R. Denny, H. A. Robertson, C. B. Crist, H. J. Blee and William Behme. Strange to say, the counsel for de-

len, J. R. Summers, D. Jones, W. O. Swan, J. A. Cline, A. A. Fall, W. A. Fleid, J. R. Denny, H. A. Robertson, C. B. Crist, H. J. Blee and William Behme.

Mr. McComas announced that S. M. Payton is associated with him in the case, and in a brief way outlined what the prosecution expects to prove. The first witness called was Mrs. Malia Garrett-Eugecomb, whose tragic story has been so largely given in the public press. She was neatly dressed in black, and was on the witness stand all the afternoon, although evidently suffering. Her testimony was about the same as that given at the preliminary examination, although a great mass of disgusting details elicited at the examination were sternly ruled out by the Court. The prosecution stated in the outset that they proposed to comine the crimes committed by the defendant to the statutory three years, and not go back into the history of the lives of the parties when they lived in St. Louis. The witness began her story as follows, speaking in a low tone, but musintaining her composure nearly all the time, although her they are the attractions treatment charged:

"My name is Malia Edgecomb, and live at No. 201 Alpine street. I have lived in the city about two and a half live at No. 201 Alpine street. I have lived in the city about two and a half live at No. 201 Alpine street. I have lived in the city about two and a half live at No. 201 Alpine street. I have lived in the city about two and a half were allowed the street of the corner of Fourth and Spring streets. It was a house of six or eight rooms, kept by Mrs. Crittenden. Papa engaged one room. My little sister was then at a convent in San Francisco to the corner of Fourth and Spring streets. It was a house of six or eight rooms, kept by Mrs. Crittenden. Papa engaged one room. My little sister was then at a convent in San Francisco. There were two beds in the room. Sometimes we occupied the same bed and sometimes separate beds. I don't remember how long wellowed the corner of Fourth and Spring streets. It was a house of

night. From there we went to Clay street, where we occupied just a room; between one and three months altogether. He went away to Detroit and left me at Mrs. Crittenden's; but he still kept the room on Clay street. Mrs. O'Farrell, I think, kept that house. There was just one bed in the room, and when my sister came the lady put up a cot for her. My sister was brought back with my father when he came from Detroit. I went back to the Clay-street house then."

The witness related the different places where she and her father moved in the city, and testified that at each place the same actions characterized her father. From Clay street they moved to a Mrs. Flizgerald's on Fourth street, to a house on Virginia street, to a house on Spring street between Third and Fourth streets, which was afterward moved back on Wilson court, to a house on Hill street, and

was afterward moved back on Wilson court, to a house on Hill street, and court, to a house on Hill street, and lastly to a cottage at the corner of Eighth and Myrtle avenues, where the weary degradation of the girl culminated in the arrest of Edgecomb, then her lover, now her husband, on charges brought against him by her, but which she testified she was persuaded into by her father.

her lover, now her husband, on charges brought against him by her, but which she testified she was persuaded into by her father.

"My father introduced me as his daughter," she continued. "He often referred to me as his daughter. He told me I was his child, but not by his wife. He told me my mother was Annie Lewis. In St. Louis my stepmother told another lady I was not my father's daughter. I asked him if I was his little girl, and he said yes, and no one could take me from him.

"In Los Angeles when I told him I was going to tell about what he had done to me, he said he would say I was not his child and no one would believe me. I told him often I would tell, and some times he would get very angry. In the last year or two he has been telling me my mother was dead.

"I left papa to go to the Mrs. Watson's. He was making me swear to lies and I told Mr. Crowell to see Mrs. Watson, or some of papa's friends and get me away from him.

"I remember three complaints against Mr. Edgecomb. I swore to two of them. He had been telling me what to say for two or three weeks before that. He said that Mr. Edgecomb had to be killed or got out of the way. He told me I must go to the District Attorney's office and tell these things. He was present at the time. I told some of the things, and Ella some, and he some. Mr. Stratton was the first person I ever told about what my father had done, at his office in this city.

The terstimony of the witness was confined nearly entirely to the direct story of the illicit relations between her father and herself, and then she was turned over for cross-examination.

The cross-examination was by Mr. Williams and lasted the remainder. of the afternoon. She testified:

"I was married July 22, 1889, and Mr. Edgecomb was in the County Jail at that time.

Mr. Williams—What was he in the County Jail for?

Mr. McComas—We object to the question.

Mr. Williams—We object to show that her motive in making this charge

Ra

Mr. McComas—We object to the question.

Mr. Williams—We expect to show that her motive in making this charge against her father was to get Edgecomb out of jail.

The Court sustained the objection.
The witness—I swore to the complaints against Mr. Edgecomb. It was over a week after that that I told Mr.

Stratton about paps. The charges were seduction and abortion.

The defense attempted to enter into all the details of the charges made against Edgecomb, but was not allowed to do so by the Court, being limited to general, impeaching questions. The witness testified that she told the stories, being forced to do so by her father. She said that her father told her to tell the District Attorney that Edgecomb had committed the trimes.

Mr. Williams indulged in his usual bulldozing tactics with the witness, and she became excited, and upon being sneeringly charged with having sworn to a lie, retorted with startling clearness and force:

"Yes, I did. I did not make the charge against paps to get Mr. Edgecomb out alone. He kept sending messages to me at Mrs. Watson's not to throw dirt. I was afraid that he would get me again. I thought first about telling it. It seemed better at first not to tell and avoid the disgrace, but when I became frightened about paps getting me again, I concluded to make a clean breast of it. I had sworn to the lies and I tried to undo it, and I did undo it. I knew it was wrong to do what I had been doing with papa, to my shame. But what could I do? Yes, I did tell about it before—to the Mayor of St. Louis."

When court adjourned for the day the cross-examination of the witness appeared to be nearly concluded, and she was very much exhausted. The trial will be resumed this morning.

If you cannot go out to the Raymond and spend a day, a week, or a month, or the whole season, then go out and stay a few hours. It is well worth your while to see the magnificent view from its piazzas; and that view alone will well repay you although there are many other interesting features—especially the grand display of flowers in the hotel grounds, which are now under the charge of Mr. C. H. Hovey, the celebrated landscape gardener, formerly of Hovor's Nurseries, Cambridge, Mass. Tourists visit ing Los Angeles should make a trip to The Raymond, even if their stay there must necessarily be brief. There are frequent trains between Los Angeles and The Raymond by several lines of railroad. The orchestra consists of four solists, who reder the choicest of music wice send day. A very complete livery is connected with the botel and it is an excellent starting point for a drive through the San Gabriel Valley, in which are situated the San Gabriel Mission Church, Rose's wherey, Lucky Baldwin's stock farm the Sierra Mader Villa and many other piaces of interest. A Brilliant Assemblage of
Guests—Lavish Floral Decorations—Details of the Happy
Event.

Wedding bells rang out merily yesterday evening in Pasadena on the occasion of the marriage of Mr. Francis Bruce Wetherby and Miss Maria Burdick Visscher, both well-known residents of this place. The ceremony was solemized at 8:30 o'clock in the First Presbyterian Church, in the presence of a large number of relatives and friends of the bride and groom, Rev. William Ormiston, D.D., officiating.

Before 8 o'clock the invited guests began to arrive, and at the hour announced for the wedding to take place the spacious church auditorium was well filled with a representative assemblage. The scene was one of exceptions of the rich evening costumes of thorse present.

The pulpit platform was a mass of those present.

The pulpit platform was a mass of the choir rail, while in front were artistically grouped a variety of choice ferns and small plants of living green. Here and there a lily or a white chrysanthemum nestled, and in the center of the platform was a mass of the platform was a mass of the platform was a mass of the plants and palms and forns, mingled with a profusion of rare chrysanthemum nestled, and in the choir rail, while in front were artistically grouped a variety of choice for the platform was a mass of the p

Capt. Anderson has bought six fine brses, it being rumored that \$1000 was the price paid for one of them. His ables, now under course of constructin at Alhambra, will be pushed to empletion with all possible haste.

Messrs. Johnson & Ford have donated a ton of Gallup coal to the Wilsh-trail fund. The coal will be raffied, \$6 chances being sold at 50 cents a chance. The lucky man gets the cal. This is an easy way to assist in rising the deficiency, and you may win a ton of coal.

C. H. Richardson has discovered a new insect or bug of some sort which seems to be creating sad havoc with cattain deciduous trees, principally par and plum trees. The insect attacks the bark, seeming to burrow underneath it. Here is a new thing for the Horticultural Commission to study upon.

The subscription paper, the purpose of which is to raise money for the deficiency on the Wilson trail fund, is now in circulation. One paper can be found at Swan's, one at Foster's and the third is in the hands of the committee. Success is crowning this landable effort to help out one of our most respected citizens.

Some lads, who probably belong to the hoodlum element, have recently been indulging in the exciting pastime of throwing stones at street-cars after dark, particularly on the Fair Oaks line. Another trick is to board a car and throw off brooms, feather-dusters, gloves, whips, etc. These boys will land in the cooler within ten days.

Mr. J. W. D. Schotte, an evangelist, remetry arrived in the city from Iows, opened religious meetings Tuesday evening in the vacant storeroom just above the Queen shoe store, on North Fair Oaks avenue. The attendance was fair for the opening night, and the singing was very good. Doubtless the gentleman will draw large houses before finishing his series of discourses, as he is an earnest speaker.

It will be remembered that at the last meet of the Valley Hunt, during the fox hunt, the pony of Edward F. Ralphs became excited and ran away, putting his foot in a hole and breaking his neck, 'throwing the rider quite heavily. Mr. Ralphs is an invalid and, a young man out of employment, so the club raised the money at the breakfast that followed, and he now has a new pony, and wishes to thank the members of the hunt.

THE 5TH OF DECEMBER

FRANCIS II., King of France and husband of Mary, Queen of Scots, died December 5, 1560, of an effusion of the brain resulting from a fistula and an sbeess in the ear. Admiral de Coligny, when the King had heaved his last sigh, rose with an air of pious gravity and said to the others who were present: "Gentlemen, the King is dead. A lesson to us to live." The Prince of Condé, brother of Anthony, King of Navarre and uncle of the famous Henry IV., was then in prison, at the instance of the Guises, and engaged in a game of cards. A servant edged his way to the Prince's chair and whispered in his ear: "Our gentleman has croaked." Francis II. had started to go hunting on November 17th, when, as he was about to mount his horse, he fell in a fit. He had recovered, however, sufficiently to be present on the 29th of November when the sentence of Condé was pronounced. The King's death, however, prevented the sentence from being carried out and saved his life. Urged on by the Guises, Francis had summoned Anthony, King of Navarre, to his palace for a consultation, in order to have him slain by assassins; and though Anthony was warned of the intention he nevertheless came to court. The King's courage left him, however, at the moment of execution and he dared not slay the man whom he hated. Had this design been carried out, the House of Bourbon might have been cut off and there would have been no Henry IV., no Louis XIV.

ROBERT HARLEY, Earl of Oxford, who was Prime Minister of England during Queen Annie's war, and concluded the treaty of Utrecht in 1713, an event so important to the American colonies, was born December 5, 1861. Queen Annie's death, in 1714, brought the Whigs into power, and Harley and the other Tory leaders were impeached and confined in the tower, where Harley carried on a treasonable correspondence with the Stuart family. He was acquitted, however, in 1717, and died in 1724.

MOZART, the illustrious composer, died at Vienna December 5, 1792. He appears as a being eccentrically formed to be a medium for the expression of music and no grosser purpose. In this he was tirong; in everything else of body and mind, he remained a child during the 35 years to which his life was limited. When 3 years old his great amusemebt was finding concords on the piano; and nothing could equal his delight when he had discovered a harmonious interval. At the age of 4 his father began to teach him little pieces of music, which

tricacy. So sensitive were his organs that he could not hear the sound of a trumpet without growing pale and almost failing into convulsions. Entirely absorbed in music, his hands were so wedded to the piano that he could use them for nothing else; at table his wife carved for him; and, in everything relating to money or the management of his domestic affairs, or even the choice and arrangement of his amusements, he was entirely under her guidance. Just before his death a stranger called upon him to request Mozart to compose a solemn mass and requiem for the soul of a deceased friend. The task was begun and the composition promised in a month. The stranger paid a number of the month be found the composition not completed, as illness had compelled Mozart to suspend work. "I am writing this requiem for myself," said eabruptly to his wife one day; "it will serve for my own funeral service." Excusing his delay in writing the piece by saying that the subject interested him more than he had expected, the mysterious stranger observed that the additional trouble deserved greater compensation, laid down 50 ducats more and took his leave. Mozart, now more than ever persuaded that he was a messenger from the other

Mozart, now more than ever persuaded that he was a messenger from the other world sent to warn him that his end was approaching, applied with fresh zeal to the requiem; and, in spite of the exhausted state both of his mind and body, completed it before the end of body, completed it before the end of the month. At the appointed day the stranger returned, but Mozart was no

MARTIN VAN BUREN, the eighth President of the United States, was born in Columbia county, N. Y., December 5, 1782. In 1812 he was elected to the State Senate, and in 1815 was made Attorney-General, soon after which he became the leader of what has since became famous in American political history, the associated with the senate of the state of the American political history, the asse American political history, the asso-ciation known as the Albany Regency. Van Buren was sent to the United States Senate in 1824, elected Governor in 1828, and for a short time was Secretary of State under President Jackson. "Old Hickory's" quarrel with Calhoun cleared the way to the Presidential succession, and in 1836 Van Buren was the Democratic candidate for President and defeated the Whig candidate, William Henry Harrison, after a spirited contest. Van Buren's defeat by Harrison in 1840 caused his defeat by Harrison in 1840 caused his temporary retirement from politics, and subsequently the ex-President withdrew from the Democratic party because he differed with it on a ques-tion of slavery, and in 1848 was nomi-nated by the Free-Soil convention at Buffalo, Charles Francis Adams being nominated for Vice-President. At the ensuing election Gen. Taylor was chosen President. Van Buren died in

Owners of overcoats should be careful about leaving those useful garments lying about in exposed places, as during the past week half a dozen cases of their mysterious disappearance have been reported at police headquarters. A little care about locking front hall doors would also come in good place.

Yesterday afternoon between 4 and 5 o'clock a boy named B. Conédo, a son of the ex-police officer of that name, came to the police station to have his foot dressed, he having had one or two of his toes smashed while attempting to steal a ride on the cable cars. The youngster was booked for medical treatment, and Dr. Wing attended to his injuries.

There were no new developments in the New High street improvement matter yesterday. One of the protesting property-owners was seen and he said that, while he was not opposed to the improvement of the street when it is needed, he did not think that the proper time had arrived. He stated, however, that if the street is graded and paved throughout from Franklin street to Alpine, he would feel justified in making some sacrifices to pay his pro rata for the work, but that he would oppose paving a part of the street and allow the remainder to continue in its present condition. At any rate, he said, there is no use talking about the matter now, as the protest, which has been sustained, has put a stop to all further proceedings for at least six months.

PROPILE'S STORE.

LOS ANGRESS, Dec. 5, 1889.

The brisk, active trade of the past week tends to show that trade is once more on a sound, solid basis. The large number of customers availing themselves of our spin-did assortment of Toys are loud in praises for the energetic manner in which we plunge into the vortex of trade impossibility and come out victorious and with flying banners. We have documents before us that show that the Pioneer Truck Company delivered to us during the month of November 802 cases, of which the greater majority were Toys and Holiday Goods. What retail establishment can show half the number of freight received? We dwell on this to impress the public that our stock is all fresh and new; illustrating our confidence and the confidence we believe the public has in us. We invite you to see our Toys and Holiday Goods and Books.

LIVELY INTEREST IN THE UTAH ROADS.

relegrams of Inquiry Flying Over the Wires - President Manvel Goes Through on His Way to Mexico - No Word From the

Bankers and capitalists must have spent at least \$100 yesterday tele-graphing to Utah and the East regardng the railroad news, given in THE Times and Herald yesterday morning. They are anxious to know the time, as near as possible, when the Los Angeles and Salt Lake road and the connections between Owen Valley, Inyo county, and Mojave will be made. When these two roads are completed it is believed that numerous factories will spring up in and about Los Angeles, and the Union

Pacific people have given out that they will make a great harbor of Redondo Beach. The result of yesterday's telegraphing is not known, but it is certain that the gentlemen who interested that the gentlemen who interested themselves in the matter are confident that the projected roads will be completed inside of two years. It is believed by many that business will pick up all along the line at once, for business men are now confident that the great capitalists of the East would not take such an interest in Southern California unless they are confident that its future is all right.

This boom in railroad affairs will

Southern California unloss they are confident that its future is all right. This boom in railroad affairs will also be the means of putting the Southern Pacific and the Santa Fécompanies on their mettle. Already the Santa Fé people see the advisability of systematically advertising the resources of Southern California in the East, and as soon as President Manvel reaches his headquarters he will begin a thorough system of advertising this country. He will start agents out with pamphlets and the best matter obtainable, and every section of the East will be canvassed. The Southern Pacific Company is also arranging to do good work for Southern California. During the past two months it has had agents down here, under the management of Maj. W. H. Arment, gathering data, and in a short time its representatives will be travelling all over the East. The State Board of Trade and the local organizations are not idle, so that it is almost certain that immigrants will be numerous next spring and summer.

grants will be numerous next spring and summer.

Yesterday President Allan Manvel, in his special train, reached this city from San Francisco. Mr. Manvel left San Francisco at 10:35 night before last and reached this city at 12:25 yesterday. This is the fastest time ever made over the road, and goes to show that the trip can be made, as soon as the Southern Pacific coast line is constituted in the sound of the Maxican lines and will then go direct to Chicago.

Yesterday afternoon four Sunset specials passed through this city from San Francisco, bound for New Orleans.

NORTHERN NEWS.

The Chronicle says:

Railroad men and those acquainted with J. C. Stubbs are inclined to believe that there were other reasons than the alleged bond of affection of 20 years' standing for that gentieman's return to the Southern Pacific Company. It is said that he was offered a larger salary than he now enjoys with the Chicago, Milwaukee and St. Faul. There he receives \$2000 a month, and it is said that to the claims on his affections the Southern Pacific has added the alluring bait of an additional \$550 a month. Another reason for the return is that Mr. Stubbs has not found his new post at all congenia!, through not having the same influence among a number of large companies that he had here where the Southern Pacific reigns supreme.

W. A. Bissell of the Atlantic and Pacific, who has been absent in the East for a morth, was interviewed yesterday upon the reported alliance of the Santa Fé and Chicago, Rock Island and Pacific. He participated in the negotiations which ended in the signing of the traffic agreement, and so is in a position to speak of it. At first the statement that such an arrangement had been effected was discredited, because on the way into Chicago the two companies cover much the same territory. The Santa Fé, Mr. Bissell said, wanted an Chicago and Northwestern, while the Rock Island wanted an Outlet to this coast. The agreement clearly meets both requirements, throwing into the Santa Fé a good share of overland business which has hitherto fallen into the hands of the Union and Central Pacific.

San Diego proposes to raise a subsidy of \$1,000.00 for the Union Pacific to build into that city. Thus far the directors have only announced their intention to build into the territory of the Southern California, probably to Barstow and certainly to San Francisco, and the inducement to build into the territory of the Southern California, probably to Barstow and certainly to San Francisco, and the inducement to build into the territory of the Southern California Ra

The Denver and Rio Grande lines, which were broad-gauged from Salt Lake to Ogden, will by the first of the year have been similarly changed all the way-to Grand Junction, where the road will have a connection with the Colorado Midland.

The people of Pheenix, Ariz. are anxious to have the Atlantic and Pacific extend its lines to connect with that city. Upward of \$208,000 was guaranteed by the citizens for the construction of the road on Saturday last.

The Texas and Pacific has moved \$3,000 more bales of cotton this year than it did last.

POLICE BUSINESS. Officer Church Resigns and Officer Homes Displaced.

Mr. Dexter was the only member of the Board of Police Commissioners on hand at the Mayor's office at the hour for the meeting of the board yesterday afternoon, and he was followed a few minutes later by Mr. Lewis, accompanied by Chief Glass. Mayor Hazard came in at 2:15 o'clock, and Mr. Knox brought up the rear, thus completing the full board, with the exception of Mr. Collins, and without waiting for the absent member the meeting was called to order and the proceedings

On motion of Mr. Knox, ex-Officer P. I. Offecei, who was removed when the Council refused to pay the bill for his services as a special officer, was appointed to fill the vacancy caused by Church's resignation.
At this point Mr. Knox was excused, when the report of Officers Hoff and Gridley on the saloon of Henry Gerke, No. 630 East First street, was presented. EMBRACERY.

T. J. CUDDY CONVICTED IN THE UNITED STATES COURT.

After a Comparatively Brief Trial-The Same Offense for Which He Passed Six Months in Jail for Contempt of Court.

The unfortunate conversation that T. J. Cuddy, ex-Chief of Police, had February 11th last with United States Juror Robert McGarvin concerning his friend, W. More Young of Fresno, has again brought trouble in its train. When that conversation took place Mr. Cuddy was a prominent Democratic politician, and it was right at the outset of the municipal campaign of last spring. W. More Young was about to be tried in the United States Court for violating the revenue laws. When the case was called Juror Robert McGarvin, a real-estate man of this city, in testifying as to his qualifications to serve on the jury, threw z bombshell in the courtroom by stating that T. J. Cuddy had called on him in that T. J. Cuddy had called on him in his office on the day before and attempted to influence his action in the case. Mr. Cuddy was cited by Judge Ross to appear before him and show cause why he should not be punished for contempt. His counsel made strenuous efforts to clear him, but, after hearing the evidence, Judge Ross sentenced him to six months in the County Jail, which term he served. Attempts to secure Cuddy's release on writs of habeas corpus were unavailing. His counsel even took the matter to the United States Supreme Court, which refused States Supreme Court, which refused

even took the matter to the United States Supreme Court, which refused to interfere.

In the mean time, the United States Grand Jury returned two indictments against Cuddy, one for embracery, the other for perjury. He was tried yesterday under the embracery charge, that being for unlawfully attempting to influence a juror in a case before the United States Court.

The trial was a short one. At 11 o'clock the impaneling of a jury began, and was effected before 12 o'clock, there being but three peremptory challenges on each side. The jury impaneled was as follows: Charles A. Baskerville, George H. Bixby, Henry K. W. Bent, Wilham H. Barnard, Nathaniel C. Carter, George T. Vail, Frederick A. Walton, F. W. Van Nuys, H. W. Stoll, Aaron Wilson and L. E. Miner.

E. H. Owen, Clerk of the United States District Court, being sworn, produced the records of the court and read that portion of the minutes of December 20, 1888, showing that Robert McCartin was drawn at a term trial juror; he also read the venire issued in pursuance of the order of court, showing Mr. McCarvin's name among the other term trial jurors. The defense objected to the introduction of the testimony, but the objection was overruled.

Turning to the minute book for January 15, 1889, the witness read the record of the impaneling of the jury. Robert McGarvin being one of those impaneled.

The plea of W. More Young as not guilty was also offered in evidence, and the order of Court setting the case for trial for February 12, 1889. cross-examination of the witness by the defense.

Robert McGarvin being sworn, testified as follows: I live in the city of Los Angeles, and my place of business is No. 20½ South Spring street, and it was last February. I know the defendant, and knew him in February, on the 11th. I saw him that day. I had a conversation with him in the forencon. He came into my office and said he wished to speak to me. He said a friend of his—a particular friend of his—would be in the city in a few days on some matters, and that his name was W. M. Young of Fresto. As he turned to go away, when he was a step or two from me, he said: "He ought to go free." That was all the conversation. D. C. McGarvin being sworn, testified that he was in his father's office when'Mr. Cuddy came in and saw him at that time. He came into the rear office, the witness being in the front office. Cuddy came in through the rear office, and, taking his father into a corner, engaged him in conversation. forenoon of the same day he was sentenced for contempt. Mr. Cuddy was in the store about 9 o'clock. If he was in the second time, it was just that he stepped out and stepped back again to ask some other question."

The witness was not cross-examined. George Hare testified that he knows Frank Weinshank; that he occupies a portion of Weinshank's shop, and Mr. Cuddy came to the door one day. The witness had a conversation with Mr. Cuddy, who asked him if Mr. Weinshank was there. When he told him Mr. Weinshank was not there, he asked the witness to tell him to call at his place of business.

asked the witness to tell him to call at his place of business.

The prosecution now rested its case without the introduction of any more evidence, and the defense began.

Mr. Cuddy was put on the stand, and in response to questions admitted that he saw Robert McGarvin on the day mentioned, February 11th, but denied that he knew McGarvin was a juror in the case. He said that he had no intention of improperly influencing the juror or any juror in the case. He said that he knew McGarvin was far as the charge against him (Cuddy) was concerned, he felt that he had not attempted to do anything wrong.

wrong.
On cross-examination the defendant On cross-examination the defendant stated that he called on Mr. Fickett upon a purely private matter of business in reference to a delegate to the approaching city convention.

In regard to Mr. Weinshank, the call he made there was in regard to some work being done in his saloun.

The defense then introduced a number of winesses to the observed.

the defense then introduced a number of witnesses as to the character of the defendant, they testifying that his reputation for truth, honesty and integrity was good at the time of the trouble. Among these witnesses were

tegrity was good at the time of the trouble. Among these witnesses were Sheriff Aguirre, Henry King, J. B. Lankershim, G. W. Barton, Engeue Germain and others. This closed the case and there were brief arguments by counsel.

Judge Ross delivered a short but pithy charge to the jury. He told it that it was its duty to be guided by the evidence in the case, and if convinced from the evidence that Robert McGarvin was a term-trial juror at the time the alleged crime was said to have been committed, and was impaneled in the W. More Young case, and that the defendant knew it when he called on him, it was its duty to find him guilty.

when he called on him, it was its duty to find him guilty.

The jury retired for consultation, and after being out one hour returned a verdict of guilty as charged in the indictment. The Court fixed next Wednesday for the sentence of the defendant, and he was placed in the custody of the United States Marshal.

custody of the United States Marshal.

The news of the conviction was the principal topic of conversation on the streets last night.

An effort to secure the release of the prisoner on bail was made with Judge Ross last night, but was unsuccessful, and he went to his old quarters in the County Jail.

THAT REAL ESTATE DEAL Dr. H. B. Pinney Sends His Version of It.

Dr. H. B. Pinney, who is tempora-rily in San Francisco, writes to The Times as follows, under date of De-

Times as follows, under date of December 2d:

I see that my name is connected with the Montaño, Chadwick and Sanchez trouble. I wish to correct some statements as made by Mr. Montaño. He states that he went out with me and viewed my property, which statement is incorrect, as I have never accompanied him to see it. Also that he investigated the title to the same and found that I only had an undivided interest in the property, which so far is correct and I so stated it to him the first time that I met him when negotiating our trade? But it is allowed one-half interest in 43% acres, instead of an undivided interest in 20 acres, as he seems to imply in his statement. And as to my being unable to make title satisfactory to him, it is all bosh. He understood from the first, and so did his attorney, Mr. Appel, that I held a contract for the undivided one-half interest, subject to \$1600, payable on or before April 1, 1890, and that he or I could have a deed by paying the same at any time, or that he could get a deed if he preferred by making morigage for that amount. I also furnished a certificate of title, showing everything as I have above stated it; and as to his notifying me that he would not complete the trade, it is untrue. The last time that I saw him to speak with him he told me that he was having certificate of title made to his property, and made an appointment to meet me the next day at 1:30 p.m. to close up and pass papers, which appointment he never kept; and to the beat of my recollection I did not see him again. He understood at that time that I would leave on the Monday micht following for San Francisco. This I did not do, but waited just one week longer, as I was assured by his agents, Messrs. Chadwick and Sanchez, that he would soon close up the trade, and that he was only waiting to arrange with the trustee of his property so that he could made the deed. He had, as he states, already made a deed and signed it, leaving blank the party of the first part, but having my name inserted as as he states, already made a deed and signed it, leaving blank the party of the first part, but having my name inserted as the party of the second part. This he did after going out with Messrs. Chadwick and Sanchez and seeing the land, as I was in-formed.

Sanchez and seeing the land, as I was informed.

The deed was never delivered to me, as I refused to accept it until properly executed and until I had seen and examined a certificate of title which he was to have furnished, but never did.

As to his filing a suit to quiet title and connecting my name therewith, it is entirely unnecessary, as I can save him all trouble and expense so far as I am concerned. He can have a quit-claim deed from me any day by paying the expenses connected with making and executing the same.

connected with making and executing the same.

My father, Dr. E. Pinney, holds a power of attorney from me and is the only one who is authorized to transact ousiness for me in a legal way.

As to the recording of the deed, it is entirely without my knowledge.

Hoping that The Times will give me this opportunity of explaining all misunderstandings and prevarieations which have been made, I remain, respectfully.

Present address, No. 232 Montgomery street, San Francisco.

FIRE COMMISSION

Engineer W. E. Stoermer Displaced -Routine Business.

The Fire Commissioners met in the

Mayor's office yesterday morning at 10 o'clock, with His Honor presiding and the full board present.

The minutes of the previous meeting were read and approved, after which the demands of the Gas Consumers' Association for \$5, and Harper & Revnolds Company for \$4, were presented and ordered paid.

The petition of Stewart & Whomes, asking that the ordinance in regard to cloth signs be repealed, was received and filed.

and filed.

Chief Ströhm reported that W. E. Stoermer was not attending to his duties as engineer and recommended his discharge. On motion of Mr. Kubrts Stoermer was indefinitely suspended, when Mr. Keefe nominated W. J. Charch to be engineer of engine No. 2, and he was appointed by a unanimous vote.

On motion of Mr. Kubrts, the Chief was instructed to have the floor of the hook and ladder house repaired, after which the board adjourned.

A Joint Session with the Orange County Board. The Board of Supervisors held an important meeting yesterday, going into joint session with the Board of Supervisors of Orange county, to ar range and adjust the assessm collection of taxes between the two counties. All the members of both boards were present and the District Attorney from each county, together with the commissioners recently ap-

with the commissioners recently appointed.

There was a general discussion of the subject, participated in by nearly all present, the Orange county members generally holding that Los Angeles need not collect the taxes for both counties, while the Los Angeles members believe that it is necessary.

Supervisor Rowan moved that the clerk telegraph John P. Dunn of the State Board of Equalization, which was carried, and the following telegram was sent: was sent:

On motion of Mr. Rowan the Assessor was directed to turn over all maps relating to Orange county to the Assessor of Orange county.
The commissioners were allowed \$8 per day while on duty and their actual expenses, upon motion by Mr. Spurgeon.

expenses, upon motion by Mr. Spurgeon.

The joint session then dissolved and the Los Angeles board adjourned after transacting some business.

A request from Dr. Brainerd to attend the Southern California Medical Society meeting at Pasadena was granted.

The resignation of M. W. Getchell as Justice of the Peace of San Antonio township was accepted, and H. N. Rankins appointed in his place.

Mr. Dougherty and others appeared in behalf of the Bacon and Stoneman road matter, urging that as it is entirely closed, a road should be opened through the Arroyo Seco.

The board then adjourned until this morning.

There is a good demand for graded stock, and those whose present flock is of the ordinary variety will do well to cross it up a little, which can be easily and cheaply done. Do not buy any fancy chickens at fancy prices, but get a dozen of eggs for a dollar or two, and raise your own.

Sometimes fibe grade eggs are not in season for hatching, and are worth no more for eating thin others. As it is necessary to dispose of them, they must be sold for eating, and the question has been raised how to prevent their being used for hatching after solling at the low price. One remedy is to send the eggs away from home for sale; then nobody can take advantage of their high class to buy them for hatching. Another is to remove the males from the yard; then to the fumes for 20 minutes. Another, hold one end in boiling water for an injustic another, pass a sharp needle through the egg and mend the breach with plaster of paris. It will be easily seen which of these are the least trouble. Probably the best way is to remove the males, as the infertile eggs will keep longer and the hens will asy just as a well as if the male were present.

Does farming pay in Ventura county?
We think it does. A gentlemen has
80 acres of hill land near the ocean
(elevation nearly 400 feet) which he
rented last year for one-third the crop,
and it brought the owner \$1200. The
80 acres yielded \$3000. This was \$45

Hundreds of farmers in this county are making only a bare living out of barley and grain culture while they might be making money every year if they would only put in fruits, vines and vegetables, buy a few chickens for the women folks to speculate with, and a cow to furnish milk and butter. Do not cling to grain if it is not paying you to do so; and it will not pay as a rule, but try other things.

A. S. White, who owns a 40-acre

A. S. White, who owns a 40-acre orange orchard on Magnolia avenue in Riverside, has had a cash effer of \$50,000 for his property. He held his price at \$60,000, but inasmuch as the offer was all cash and he could use gold coin to advantage, he offered to come down to \$55,000. This property was purchased 12 years ago, and the income from the place at the present

moment has paid for the property and all expenses connected with the same, including interest, and today is yielding an annual income of from \$8000 to \$10,000.—[Times-Index.

The profits made in temon growing by some of the orchardists in this valley, this year, would be astonishing to some of our eastern friends. John Amber of Etiwanda sold lemons from three and one-quarter acres (316 trees) since March for \$1475. Two 13-year-old trees on his place, together produced \$43.75 worth of fruit. Mr. Amber has prepared to plant five more acres to lemons before next March.—[Pomona Progress.

Pound Cake.—One and one-half cups flour, one cup butter, one and one-half cups sugar, one cup eggs, one-half teaspoon baking powder. Beat butter and flour to a cream; beat eggs and sugar very light; put all together and add the baking powder.

Meat and Potato Puffs.—With two eggs, well beaten, mix a sufficient quantity of mashed potatoes to whip to a cream, adding gradually a cup of milk. Then add flour enough to allow of the mass being rolled out into a sheet; cut this into squares, and in the center of each lay a slice of beef or mutton, well seasoned with mustard or catsup. Lay on this a slice of ham of the same shape and size, fold the paste into a triangular turnover, printing the edges deeply, and fry in butter to a nice brown. When done, lay them on white paper for a moment to absorb the grease, and serve hot.

Price, Including Paper One Year, \$2.

This beautiful book is the most practical work of the kind that has ever been printed and will be warmly welcomed by our readers. Its author has had a long and extended ex-perience in artistic needlework, and in this volume she has carefully set forth the results

of her study and labor in this fascinating department of art.

She has illustrated her work by means of COLORED PLATES, each one of which is and one intertend the piece of embroidery which it represents. On one page of the book she shows an outline pattern of the leaves, and on the opposite page is a beautiful COLORED FLATE showing the pattern as it appears after it has been properly worked. This plate shows the exact colors that were used in doing the work, and the outline pattern is lettered and numbered, and the author gives full directions for working the colors,

THERR ARE EIGHT OF THESE COLORED PLATES. AS FOLLOWS:
